

Sika Development Fund

P.O. Box 2038

Serrekunda

To: Dr Afthab Hussain and family (Birmingham, England)

20th March 2024

Dear Dr Hussain and family

The Executive Committee and members of Sika Development Fund (SDF) hereby express our profound gratitude to you and the family for financing the construction of a water borehole in our community in loving memory of Sivta Bibi.

The new water borehole is helping in the construction phase of the Sika Community Clinic which will respond to the health needs of the community. The borehole has also solved the acute water shortage faced by 250 pupils and their teachers at the Sika Basic School, situated opposite to the Community Clinic being built.

To show our gratitude to you and the family for this wonderful support, we placed a commemorative plaque by the borehole. We will share with you (via WhatsApp) some selected photos and videos of the borehole and the difference it is already making to the community, especially at the Basic School.

This support is timely and is appreciated more than words can express. Therefore, we extend our profound gratitude to you and the family. May Allah (SWT) richly reward you all; and may He (SWT) accept the gift as *Sadaqah Jariyah* for Sivta Bibi. Aamiin

Sincerely,

A handwritten signature in black ink, appearing to read 'Kemo Sonko'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Kemo Sonko

President, Sika Development Fund
